## DataSuite3 license discounts

### Our discount system: fair and transparent

To receive a volume discount, you do not have to order multiple licenses at the same time. You will receive a volume discount from us from the third order onwards.

From the 3rd license: **10% Discount**

From the 5th license: **20% Discount**

From the 10th license: **30% Discount**

### Always included in all license packages

**Free updates:** Regular and free updates are available to you via our download portal.

**Support:** Don't hesitate to call us or write an email. Our support will be happy to help you.

**Independent software:** Neither Excel, TIA portal nor OPC server is required for our DataSuite3. You remain independent.

**Unlimited Number of Variables:** Read and write PLC variables without artificial restrictions.

**No subscription - no hidden costs:** With us you only pay one-off prices. Everything is always cost-transparent.

## Optional services

### Profibus/MPI Adapter

On request

The Profibus/MPI adapter is an ideal addition to our software - a communications processor in plug-in format. The power supply is either via the CPU of the automation device or optionally with DC 24 V from an external source. The network connection can be used with any standard Cat-5 cable. Connection lengths of up to 100 meters can be achieved without additional components. The delivery time is approx. 5-10 working days after receipt of the order.

### Online training

€199 net

An expert from our company will train you on how to use DataSuite3 by telephone and using MS Teams.

### Online commissioning support

€399 net

An expert from our company will support you with the initial commissioning by telephone and using MS Teams. The configurations of our software can be immediately adapted to your needs under guidance.

### Extra USB dongle for DataSuite3 (floating license)

€349 net

### Another PLC connection

€199 net

### Hardware defective (replacement license)

€59 net

### DataCenter 3 Edition

€2869 net

All prices are net, plus VAT

# DataSuite3

## System requirements and compatibility

The following applies to all variants of DataSuite 3:

### Connections to the PLC

- PUT-/GET Communication per RFC 1006 (Ethernet/Profinet)
- Profibus/MPI possible with adapter (optional)
- When OPC-UA communication is selected, the PLC acts as an OPC-UA server (available from the standard license)

### Hardware

- Dualcore CPU with min. 1,5 GHz
- At least 4 GB of RAM
- Screen with a resolution of at least 1280x1024

### Operating system

- Windows 10, Windows 11, Server 2016, Server 2019
- No Excel installation necessary

### Controls

- All Siemens S7 controls with Ethernet, e.g. S7-300, S7-400, S7-1200\*, S7-1500\*, ET 200SP\*, Siemens software PLC, Siemens-compatible controls, e.g. VIPA
- \*Optimized blocks can only be used with an OPC UA connection and not with a put/get connection.

### License

- Standard: One-time online activation: no USB dongle
- Optional: With USB dongle possible (surcharge of €349.00 net)

### Shelly measuring devices

DataSuite3 is compatible with all Shelly EM and PM devices.

### W&T devices

DataSuite3 is compatible with all W&T devices in the WebIO series.
